Summary

CS Undergrad | MGIT (9.18 CGPA) | NPTEL National Topper. Built **AI-powered full-stack systems** with Python, Flask, and LLMs. Developed **production-grade projects** (GitHub Intelligence Engine, Campus Platform). Actively seeking a **Software Engineering Internship** in **Backend Development** or **Intelligent Applications**.

Education

2024-2028 **B.Tech. in Computer Science and Engineering**
Mahatma Gandhi Institute of Technology, Hyderabad, India Current CGPA: 9.18

Technical Skills

Languages	Python, Java, JavaScript(ES6+), C
Web and Backend	Flask, Django, REST APIs, HTML, CSS, Bootstrap, React, NodeJs
Database	SQL, SQLAlchemy ORM, DBMS, Query Optimisation
AI/ML/Data	Machine Learning, LLM Integration, Predictive Modelling, Data Analysis
CS Fundamentals	DSA, OOP, Operating Systems, Software Engineering
Tools / Platforms	Git, Linux, Postman, Regex, Agile / SDLC

Projects

- May 2026 – **GitHub Repository Insight Engine** [\(Link\)](#)
June 2026 *Mahatma Gandhi Institute of Technology* [\(Git\)](#)
Built an AI-powered repository intelligence platform using Python, Flask, Google Gemini, GitHub APIs, and GitPython to reconstruct repository purpose, architecture, and development history. Analysed 1000+ repository artifacts (files, commits, metadata) in less than 20 seconds, automatically identifying code issues and generating actionable improvement recommendations.
- Mar 2026 **AI Code Complexity Analyser** [\(Link\)](#)
Mahatma Gandhi Institute of Technology [\(Git\)](#)
Developed an AI-powered code analysis platform using Python, Flask, AST, REST APIs, and LLaMA 3.1 (8B) to automate algorithm detection and optimisation. Processed 200+ lines of code per analysis in under 10 seconds, evaluating 5+ static code metrics while generating AI-driven optimisation recommendations.
- Jan 2026 – **CampusLink — Campus Event Management Platform** [\(Link\)](#)
Apr 2026 *Mahatma Gandhi Institute of Technology* [\(Git\)](#)
Developed a full-stack web application using Python, Flask, MySQL, and SQLAlchemy ORM, implementing RBAC authentication, RESTful routing, and CRUD operations across 9+ database models. Built event registration, payment verification, and attendance tracking modules with automated email notifications for 7+ workflows.

Certifications and Extracurricular Activities

- June 2026 **Generative AI Essentials** [All Certificates](#)
– July 2026 *MPIT-COE with TCS-ion*
Completed comprehensive training in Generative AI concepts, including Large Language Models (LLMs), prompt engineering, AI applications, and responsible AI practices. Gained knowledge of AI workflows, limitations, security, and ethical considerations.
- June 2026 **Software Development Job Simulation**
Datacom via Forage
Performed root cause analysis and bug fixing in a React/JavaScript web application; Improved application reliability and user experience through code remediation.
- Jan 2026 – **Advanced Computational Techniques**
Feb 2026 *NPTEL – Skill India*
National Topper in the Certification Exam Conducted in March 2026.
